

## Detailed Steps To Purchase a Domain at Namecheap

**Step 1:** At [Namecheap](https://www.namecheap.com), search for a domain name that you want and click “Search” to see whether it’s available or not.

**Step 2:** Check the extension of the domain name that you want (Remember that .com is the best) and click “Add to Cart” icon. Proceed to click “View Cart” and “Confirm Order”.

### WhoisGuard Privacy Protection

WhoisGuard privacy protection service ensures that your personal info does not show up in the Whois database. [Learn more →](#)

Associate to this domain and enable at the time of purchase. **RECOMMENDED**

**Step 6:** There are 3 ways you can make payment for the new domain that you want. For starters, you will be making payment with your credit card for now. If you have a Paypal account (which will be covered in the next Pre Training step), you can also use it to pay for the domain registration fees. Lastly, you can simply add funds to the Namecheap account that you now own so you can easily pay for future domains with this option. After adding funds to the account, you can make the payment using **“Account Funds”**. Once you have keyed in the payment method, click **“Continue”**.

We are using your default domain configuration, but we don't have your payment settings on file. Please enter them now. [Review domain configuration.](#)

### Payment Method

**Secure Card Payment** VISA

Your credit card information is secure, and your card is not charged until after you've confirmed your order. Adding a new card? [Learn More](#)

**1. Secured Payment**  
**2. Paypal**  
**3. Account Funds**

**Step 7:** Check the “**Enable WhoisGuard**” box as the service is provided free of charge for the first year and you have an option to renew it or not the following year when it expires. The service keeps the details of the registrant anonymous. Click on the “**Checkout**” button and make the payment accordingly.

The screenshot shows the Namecheap checkout process. At the top, there is a navigation bar with 'SUPPORT', 'SIGN OUT', and 'USD'. Below this is the Namecheap logo and a progress indicator with steps: Account, Setup, Billing, Order (highlighted), and Done. A notification box states: 'We used your previously entered settings to configure your domains and select a payment method. If that's okay with you, simply continue reviewing your order. To change something, select from these options: [Review domain configuration](#) [Review payment settings](#)'. The main content is an 'Order Review' table:

Item	Duration	Price	Options
Domain Registration pengjoonfitness.com	1 year	\$10.69	🔒 👁
Free WhoisGuard ** Free!	1 year	\$2.88 \$0.00	
<b>Subtotal</b>		<b>\$10.87</b>	

To the right of the table is a 'Your Subtotal' box showing '\$10.87' and a red 'Checkout' button. A red arrow points to the 'Checkout' button. Below the subtotal box are links for 'All Whois Contacts' and 'All Details'.

**Step 8:** After you insert all the credit card details (Or your Paypal details if you have one), you will see this screen when they are processing your payments.

**Step 9:** Once the process is complete, you will see this screen where it shows that the command is completed successfully. Presto! You obtained your first new website!
